NEW YORK STOCK MARKET. New York, October L.-The stock market to day was in contrast to that of yesterday rather dult, especially in the evening, while in the place of the wide fluctuations and sharp move-ments of yesterday there were comparatively small changes in quotations throughout the day and little decided tendency of prices at any time. The feeling on the street was undoubtedly easier and many regarded the situation as like-y to improve from this time out and buyers were encouraged by some support from Lo The general opinion was that any forced liqui-dation was pretty nearly completed and that stocks had undoubtedly gone into strenger hands and evidences of buying by insiders in

several of the larger properties were seen. A strong opening was nad, and demaniferm London with that from shorts was sufficient to make further slight gains in the early trading. The advance, however, was the occasion of symmetelling, when the demand slacked away, and toward near the bears gathered courage enough to renew the pressure, and prices were carried down to below the opening figures in almost everything traded in while Burlington and Quincy, Rock Island, Atchison, and Tennesses coal, and some others displayed marked weakness ander the assumit and sugar efficers rought ing the rear with a drop of per cent. Sood buying again appeared, and see in the lay a untertal recovery from the A STRONG OPENING.
